Faculty Assessments of Library Instruction Programs - examples

http://www.surveymonkey.com/s/WJWQYPV
Please fill out the following information as it applies to the library research instruction your class recently received:

What course did you bring in for library instruction?

Were you satisfied with the communication you had with the library staff before your session?

Was the material presented at an appropriate pace?

Was the library instructor effective in addressing the needs of the students? Did you feel your class was given adequate time to work on their assignment during the session?

How well do you think this instruction session prepared your students to complete their research assignments? Did students’ assignments and papers exhibit an understanding of the material covered in the instruction session?

What were the most useful elements of the session?

Other comments or suggestions?

Who was your library instructor?
